The following troop trains were observed: Four trains enroute from Neustrelitz to Kyritz and one train each from Neubukow and Kroepelin to Koenigsbrueck on 13 June; one train each from Neubukow and Kroepelin enroute to Kummersdorf on 14 June.*

- * Comment: The Kyritz area was used as a training area for units of the 2nd Guards Mechanized Army in previous years. Components of the 4th and 62nd AAA Divisions were retransferred to Koenigsbrueck and Kummersdorf respectively from the Wustrow firing range. It appears that the return shipments of AAA units from Wustrow to their cadre units terminated in mid-June. The units had been transferred to Wustrow in mid-March.
